

The technical requirements:

1. Through the electrical performance 100% test, products have no short circuit, open circuit;
2. On-resistance: 3Ω (Max);
3. Insulation resistance: DC300V 10M Ω (Min)
4. Working voltage 250V Rated current (40 °C) 4A
5. Product appearance can't shrink, damage hardware, no contamination
