About Us

Shenzhen Yilian Connection Technology Co., Ltd. - YLinkWorld was founded in 2016, We focus on design, manufacturing and global sales of connectors and cable harness. We are your reliable customized connectivity solutions partner!

the development to today has 2000 square meters of factory buildings, 100 employees, including QC 20 staffs, Design and R & D department 5-6 peoples, and 70 laborers.

with quality system&environmental system certification, 16949, SGS ,CE,ROHS and IP68 certification. It has 60 sets of CNC, 20 sets of injection molding machines, 10 sets of assembly machines, salt spray test machines, computer projectors and other advanced production and testing equipment. The product series of industrial connectors are M series, SP connector, solenoid valve connector, waterproof USB, Type C, New energy Connector. The application of connectors is now very wide used, such as aerospace, ocean engineering, communication and data transmission, new energy vehicles, rail transit, electronics, medical, each field of the requirements for connectors are different, We have the annual production capacity of 10 million products. We adhere to the core needs of customers based on continuous technological innovation, with the best quality to provide processing services! Warmly welcome you join in us, your support will be always our motivation. Let's go forward hand in hand to create a brilliant future.

SUPPORT

500+

Professional elite engineers and technicians

EXPERIENCE

10+

Years of connector industry experience

SERVICES

98%+

Customer satisfaction rate

DELIVERY

99%+

On time delivery

CONCEPT

Vision

Solving customer's difficulties and eliminating customer's worries, strive to grow into China's first-class, world-renowned connectors service company

Tenet

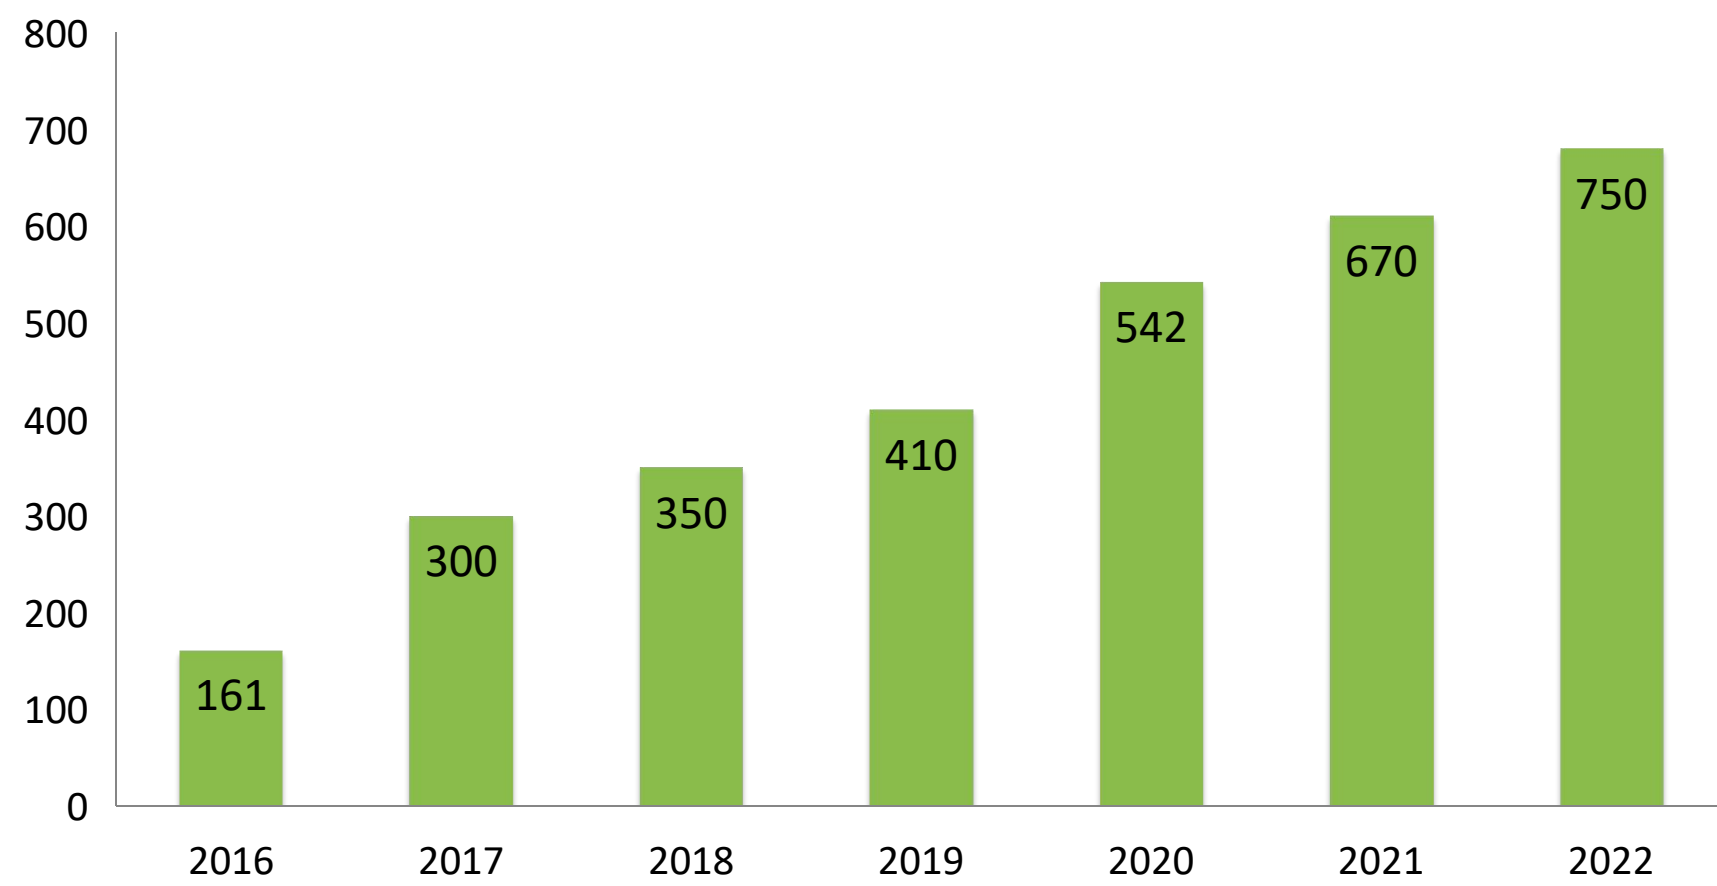

Service creates value, service wins respect and service builds brand

Value

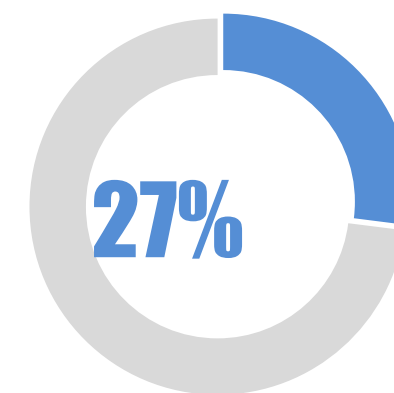

People-oriented, customer first, quality first, excellence, continuous improvement, efficient and economical

Services and Advantages

Once you need all we support in connector industry

Services

Fast Quotation

- ▶ Enquires and consultation responded within 2 hours
- ▶ 24 hours real-time engineering support from concept design to mass production

Fast Drawing

- ▶ Quick drawing as fast as in 24 hours
- ▶ Low volume lead time 3-10 WDS
- ▶ 24 hour order service

Turnkey Service

- ▶ Connector manufacturing
- ▶ Related accessories procurement
- ▶ Programming
- ▶ Testing
- ▶ Connector assembly

Effective and flexible solution

- ▶ Full range of connectors and one-stop solutions, you will benefit from our experience in technology, logistics and supply chain management

Advanced quality management

- ▶ ISO9001,ISO14001,ISO13485,TS16949 certification
- ▶ 100% Full process inspections such as IQC, IPQC,OQC etc,
- ▶ Reliability test, electrical performance test , Environment test and Mechanical test

Material advantages and cost-effective

- ▶ A large inventory of special connector materials can realize fast service to a wide range of application fields
- ▶ Save your cost by efficient lean production and also by material selection, design and pre-engineering, engineering suggestions

Advantages

The raw material of connector contacts is Phosphorus bronze from Boway

We have cam walking machine 50 sets, cam machine 39 sets, the Pins and shells are made by ourselves, can save cost

Low pressure injection molding, better waterproof effect

Our cable owned UL2464(PVC) and UL20549(PUR) certification

Connector contacts is Phosphorus bronze with 3μ gold plated

Hardware fittings are strictly in accordance with 48 hours salt spray requirements

Products and Application

High-End Chinese connector manufacturing Provider

Products

M12 molding type

M12 Panel mount type

M12 assembly type

Products

M16 connector

solenoid valve connector

M23 connector

Products

SP connector

Waterproof USB /type C

Hardware Fittings

The process of production

Rubber Core Processing

Male and Female Pin Core Processing

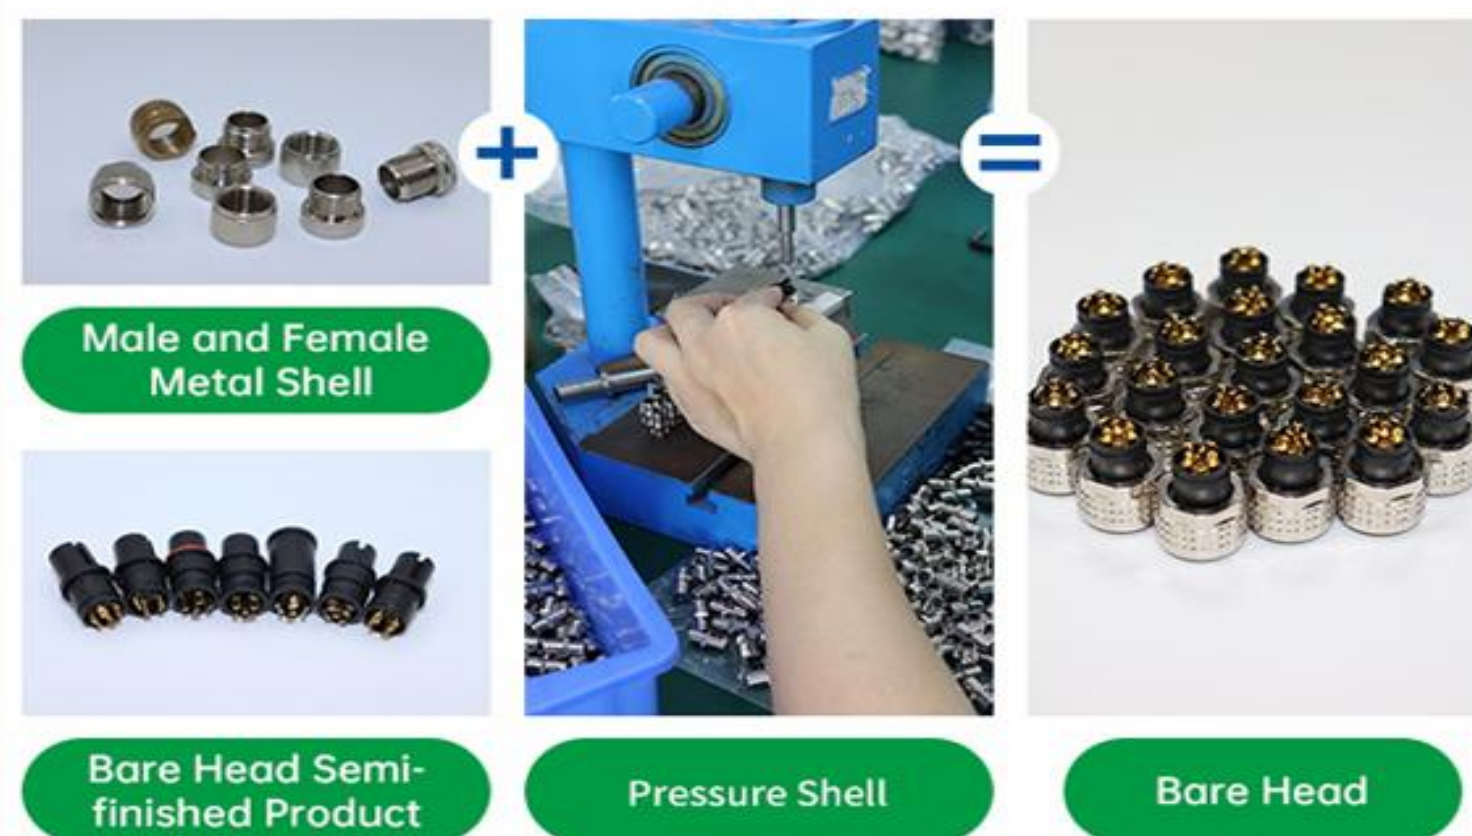

Male and Female Copper Shell Processing

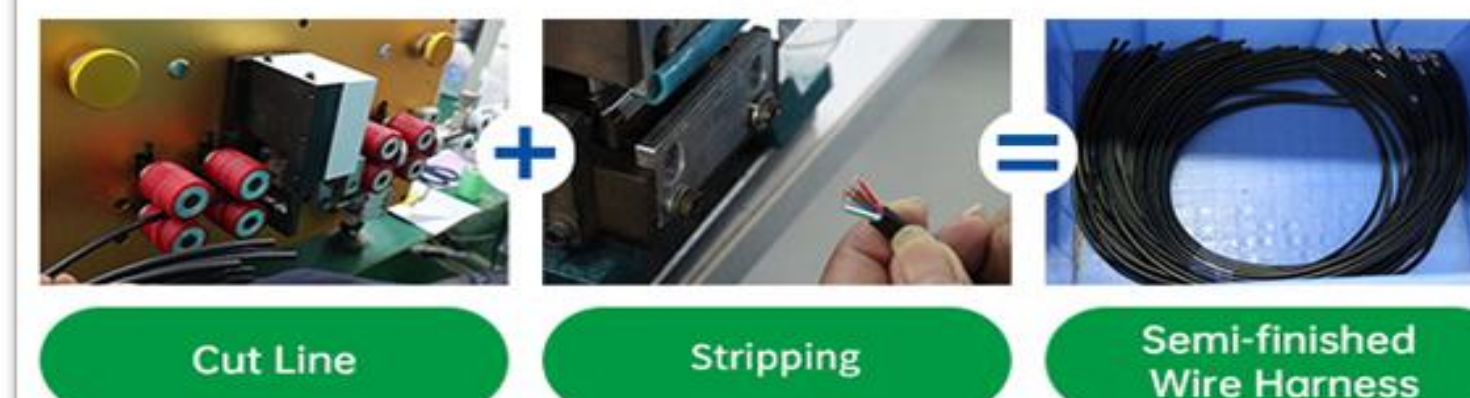

Bare Head Semi-finished Product Processing

Bare Head Processing

Wire Harness Processing

Wire Processing

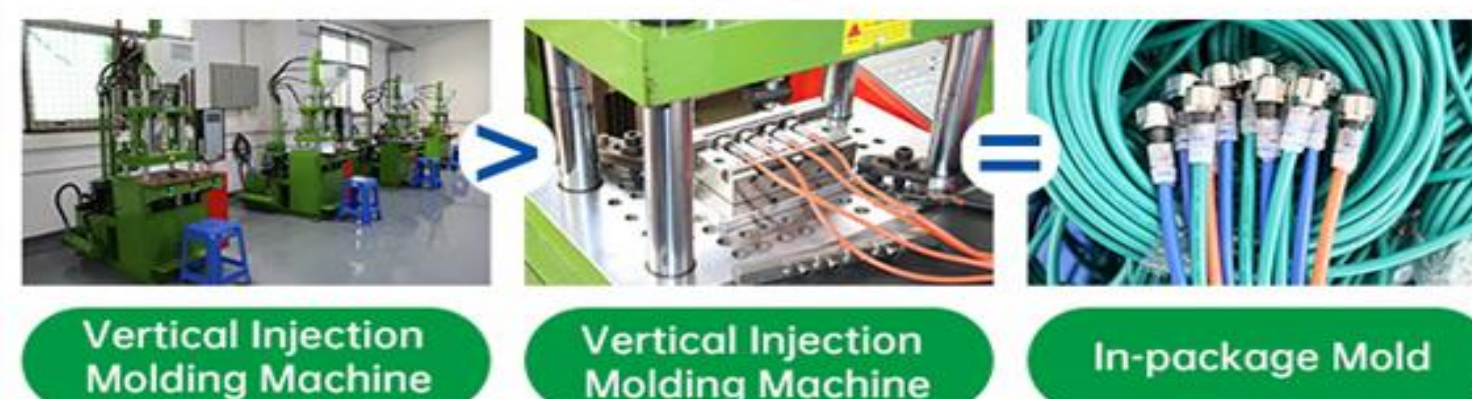

Outer Mold Processing

Finished Product Inspection

In-package Mold Processing

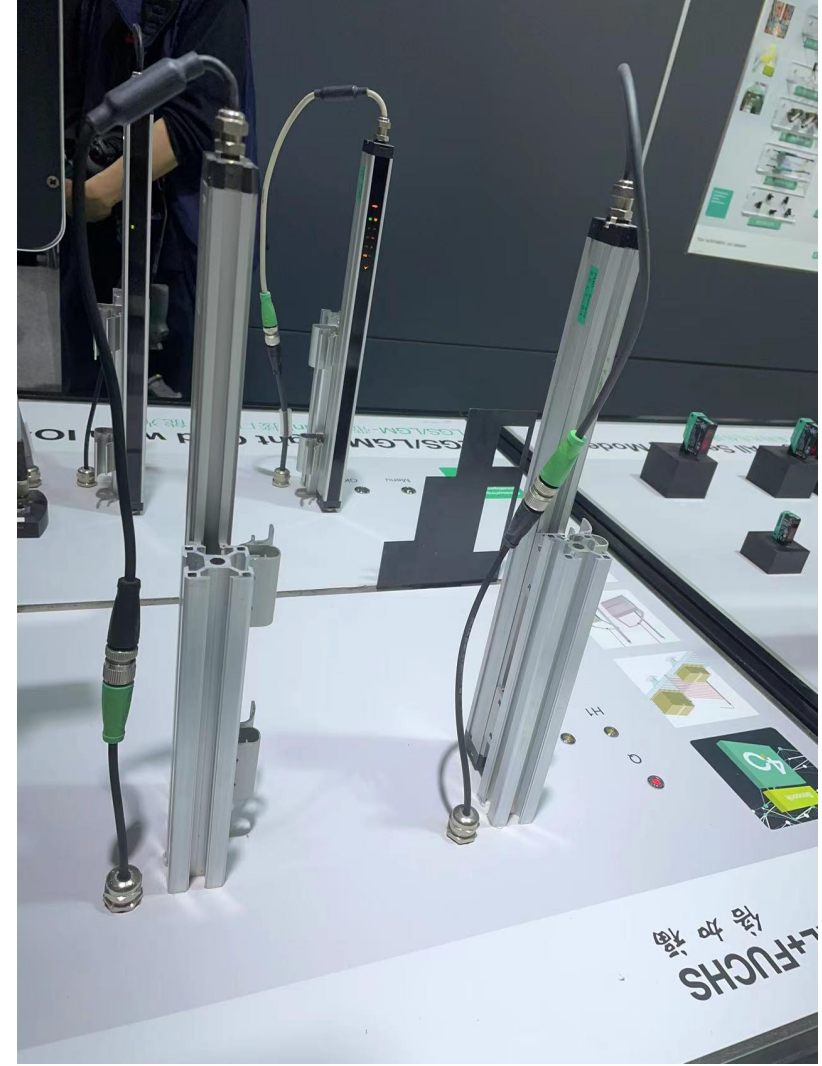

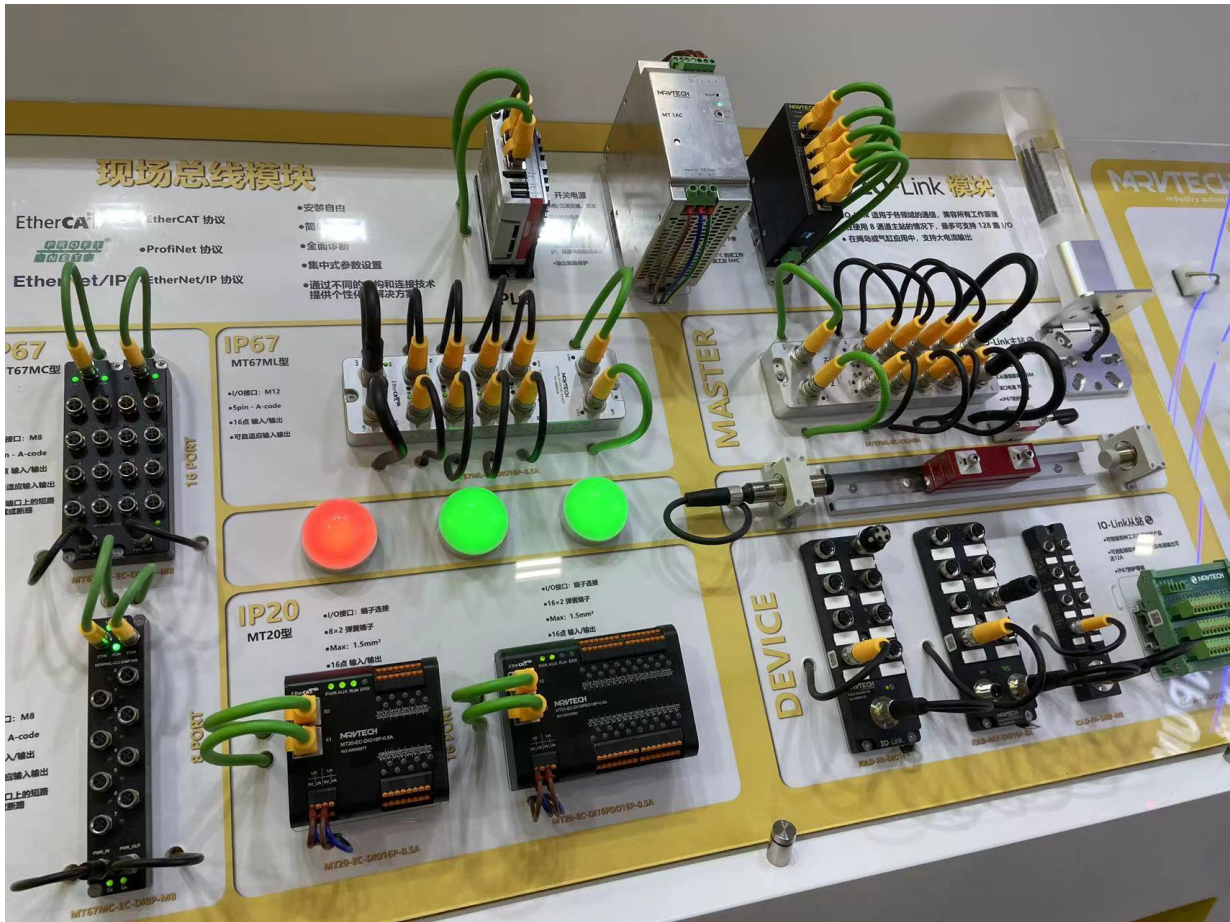

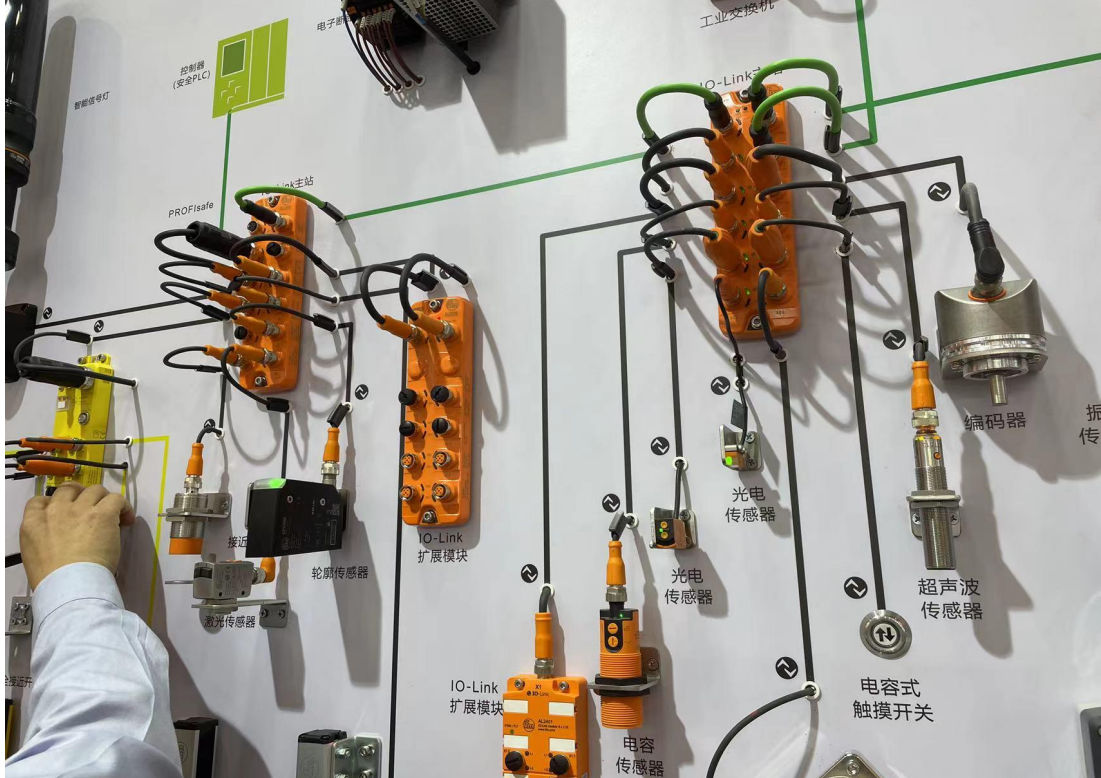

Product Packaging

Applications

Our products are widely used in industrial automation industry, LED lighting, medical technology, Marine and Marine engineering, traffic application, Indus-connector products can meet your requirements. With future-oriented technology and extensive expertise, Yilink is your solution partner.

Certification

To be your reliable connector supplier, we strictly control the quality from raw material to final products

High Frequency FAQ

Q: what can you buy from us?

A:waterproof cables, waterproof connectors, power connectors, signal connectors, network connectors, etc., such as M series, D-SUB, RJ45,SP series, New energy connectors, Pin header etc.

Q: What is the lead time?

A. For sample: 3-5 working days; For mass order: 15-20 days after deposit, depends on final order qty.

Q: Why choose YLinkWorld? What makes your company a reliable supplier?

A: since its establishment, ylinkworld has been committed to becoming the world's leading manufacturer of industrial connections. We have 20 injection molding machines, 80 CNC machines, 10 production lines and a series of testing equipment.

Q: How big area do you have the factory?

A: Yilian Connection Technology Co., Ltd. was established in 2016, with a factory scale of 3000 + square meters and 200 employees. It is located at Floor 2, Buildings 3, No. 12, Dongda Road, Guangming District, Shenzhen City, Guangdong Province, China (post code: 518000).

Q: How many advanced production and testing equipment are there in factory?

A:Since 2016 established, We have 20 sets of cam walking machine, 10 sets of Small CNC walking machine, 15 sets of injection moulding machine, 10 sets of assembly machines, 2 sets of salt spray test machines, 2 sets of swing machine, 10 sets of crimping machine.
